INTRODUCTION

A. Situation Analysis

Man is a creature social need partner For continue continuity his life , wrong one that is through marriage n. Wedding is a connection between a man And that girl acknowledged relationship (husband and wife), social , parenting legitimate children and distribution clear work Good for husband nor wife (Janiwarty & Herri , 2010).

Wedding is something a holy , strong , and sturdy For life together in a manner legitimate between a man with a Woman For form eternal family , polite sympathize , love loving , serene , and happy . Wedding for man is important thing , because with wedding somebody will obtain balance life Good in a manner biological , psychological nor in a manner social (Mangunprasodjo (in Dwinanda , Wijayanti , & Werdani , 2015)) . Someone who does wedding besides need the biology will fulfilled , maturity emotion And maturity Also will role , p that is Wrong very aspect important For guard continuity wedding .

Guard continuity wedding in line with the marriage that has objective For married . Deep effort reach objective marriage is a married couple must own pattern mature thought And mature order home ladder happy And endure until death separate . Delori (2005) explains ideal age to marry on Woman ie 21-25 years And male 25-28 years , because on age it's a reproductive organ Woman in a manner physique Already develop with Good And strong as well as Ready gave birth , so did at man on ages 25-28 will Ready For sustain life his family . However in fact , a lot man And Woman marry at a young age young . Marry on age young (underage) called with wedding early .

According to Widyana , Toyibah , & Prani (2015) marriage early is bond marriage done by partner aged not enough of 21 years , according perspective law in u laws wedding in 1974 article 6 paragraph 2 was established that For carry out wedding must reach 21 years old , before age the must with agreement parents . Based on information the can concluded that wedding early is marriage done on not yet old sufficient condition And provision u laws wedding according to rule country , deep consideration Not yet Ready physique and mentally for form something House stairs .

Case wedding early much happen corner world with background different backs . Based on data from UNICEF (*United Nations Children's Fund*) in 2005 the phenomenon wedding early (*early marriage*) often found on communities in South Asia viz there are 9.7 million child Woman or 48% married on under age 18 years old , Africa by 42% and Middle East (Paediatrics , 2009).

BPS data (Agency Center Statistics), 2008 in Indonesia there are 5 provinces that are still Enough tall marriage case early , namely Java East (28%), West Java (27.2%), South Kalimantan (27%), Jambi (23%), and Central Sulawesi (20.8%). Besides That case wedding early in Indonesia can seen on Table 1 follows:

Table 1. Percentage Wedding Underage in Indonesia

Year	2008	2009	2010	2011	2012
percentage	27.4%	25.8%	24.5%	24.7%	25.0%

Source : SUSENAS 2008-2012

Based on Table 1 can be seen that wedding early in 2008 was on percentage of 27.4%, in 2009 as much as 25.8%, in 2010 as much as 24.5%, in 2011 at a percentage of 24.7% and in 2012 as much as 25.0%. Based on these data shows that percentage wedding underage in Indonesia relatively high.

Based on KUA data (Office of Religious Affairs) Sosopan District, Padang Lawas Regency is known for polite village in 2020 total married teens under 21 year i.e. 24 people from 83 couples married. In 2021 the number of catin (bride and groom) who are married under the age of 21 is 28 out of 171 married couples and in 2022 out of 99 pairs the number of married couples is 32 catin who are married under the age of 21. Furthermore, in 2022 there will also be 18 catin who have not registered their marriages at the KUA Kec. Polite, this happens for several reasons, one of which is the age that is not sufficient for marriage. The data illustrates that every year there is an increase in catin who marry underage.

Based on observation PKM executive, occurrence of underage marriages in the village Sosopan Kec. Kab. Padang Lawas caused teenager experience failure for take further education. This is due to several reasons, one of which is the economic gap between parents to send their children to public or private universities. This reason results in when someone proposes to their daughter, the application will be accepted or when their son does not continue to PT, the parents propose to marry (*mambuat boru*) in order to continue the lineage (*marga*).

B. Formulation of the problem

Based on the situation analysis that has been put forward, the formulation of the Community Service (PkM) problem is:

1. The number of underage marriages in Indonesia is relatively high.
2. Lack of knowledge of adolescents (children) and parents about the dangers of underage marriage.
3. An increase in the number of catin underage marriages every year for Sosopan Village, Kec. Kab. Old Field.
4. Counseling teachers play an important role in preventing underage marriages and the importance of further education to support future careers.
5. Village government officials and KUA have a role in socializing the dangers of underage marriage.

C. Benefits of Devotion

This PkM is useful in increasing the understanding of students (adolescents) about the dangers of underage marriage and preventing early marriage at Sosopan High School in particular and the entire community of Kec. Kab. Padang Lawas in general.

METHOD

PkM implementers and assisted by KKL STAI Barumun Raya Sibuhuan students prepare all the necessities that can support the implementation of this activity by determining the time and location of implementation, administrative preparations in the form of permits, participant absences and documentation tools as well as preparing material on "The Dangers of Underage Marriage".
